

VIGNESH J

Full Stack Developer

Chennai, Tamil Nadu | +91 8056194619 | vigneshjeevarathinam1@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with nearly 5 years of experience building scalable web and mobile applications across fintech and aerospace domains. Specialized in React.js, Node.js, and TypeScript, with strong expertise in RESTful API design, performance optimization, and cross-platform mobile development using React Native. Experienced in leading teams, driving Agile delivery, and deploying on AWS.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Material UI, Three.js, Redux Toolkit, Next.js

Backend: Node.js, Express.js, RESTful APIs, MySQL, MongoDB

Mobile: React Native (Android & iOS)

DevOps & Tools: AWS, Docker, GitHub Actions, Git, CI/CD

Practices: Agile/Scrum, Code Reviews, Performance Optimization, Unit Testing

PROFESSIONAL EXPERIENCE

L&T Technology Services (LTTS), Bangalore *Senior Engineer* March 2025 – July 2026

- Developing a mission-critical Human Machine Interface (HMI) system for Airbus to visualize and manage complex aircraft system interactions.
- Built scalable, reusable UI components using React.js and implemented real-time 3D visualizations with Three.js and Redux Toolkit.
- Improved rendering performance and responsiveness across platforms through optimized state management techniques.
- Collaborating with cross-functional teams following Agile methodology, CI/CD pipelines, and code review best practices.

Apptivo Softwares, Chennai *Technical Lead* July 2024 – December 2024

- Led a team of 4 developers in building a cross-platform mobile application using React Native for Android and iOS.
- Managed end-to-end project delivery including timelines, code reviews, and feature prioritization to maintain quality and schedule.
- Established coding standards, led regular code reviews, and fostered a collaborative team culture focused on quality and innovation.

Valor Pay Tech, Chennai *Software Developer* August 2021 – July 2024

- Designed and implemented full-stack web applications for a payment gateway platform supporting Admin, Merchant, and ISO user roles using React.js and Node.js.
- Optimized MySQL queries for high-volume transaction processing, reducing execution time by 50% and significantly improving data load performance.
- Implemented RESTful APIs and security measures to protect sensitive financial data collaborated with UX/UI designers to ensure seamless user experience across workflows.
- Troubleshoot and debugged production issues, providing swift resolutions to minimize downtime and maintain platform reliability.
- Mentored junior developers on coding standards and best practices, contributing to team growth and code quality.

EDUCATION

Tagore Engineering College, Chennai *B.E. Computer Science and Engineering* 2015 – 2019
